HAT-SAN

HISTORY

HAT-SAN Shipyard is an affiliation of "PEKAR GROUP". PEKAR GROUP that had already been into mining, construction, foreign trade and energy business. made a decision in 2006 to invest in shipbuilding and marine business. Shipyard investments are started in the allocated area for Shipyards in Altınova/ Yalova in 2007

2008

HAT-SAN Shipyard began ship building. First delivery was a 1500 DWT Bunker Tanker "M/r Kaya Bener" for Turkish Owners.

2012

New deliveries continued with sister of purse seiner/trawler fishing vessel series to Norwegian Owners.

2013

HAT-SAN decided to start ship repair services and first repairs began on the pier with HSI O Type 10.000 MT lifting capacity "home made" floating dock.

2016

World's biggest powership "KARADENİZ POWERSHIP OSMAN KHAN" is delivered to the Owner as a conversion project.

2018

A 55 ton BP ice breaker tug is completed and delivered to Owner.

2019

New contracts are signed for new projects. One of them is a floating dock that is 10.000 MT lifting capacity to a Danish owner. One of the others is a 4000 CBM live fish carrier to Norwegian owners. Also, 65 m purse seiner/trawler project is signed for Norwegian owners. HAT-SAN started to build all three projects immediately.

2020

The floating dock is completed and delivered to Turkish Navy at the first half of the year. Also, 10.000 MT floating dock is completed and delivered to Danish owner. HAT-SAN decided to increase repair capacity with building Panamax size floating dock "HULK" has started. "HULK" has 25.000 MT lifting capacity and 250 x 38 m in size. Also, two sisters 4000 CBM Life Fish Carriers are delivered to Norwegian owners.

2021

HAT-SAN made a decision to acquire next shipyard and expanded its capacity to 100.000 m2. New slipways, floating dock, workshop areas, social areas are under construction in this new area.

AMT Commander, one of the biggest barges in Europe, has been lengthened. Also, five megablocks were installed to the barge.

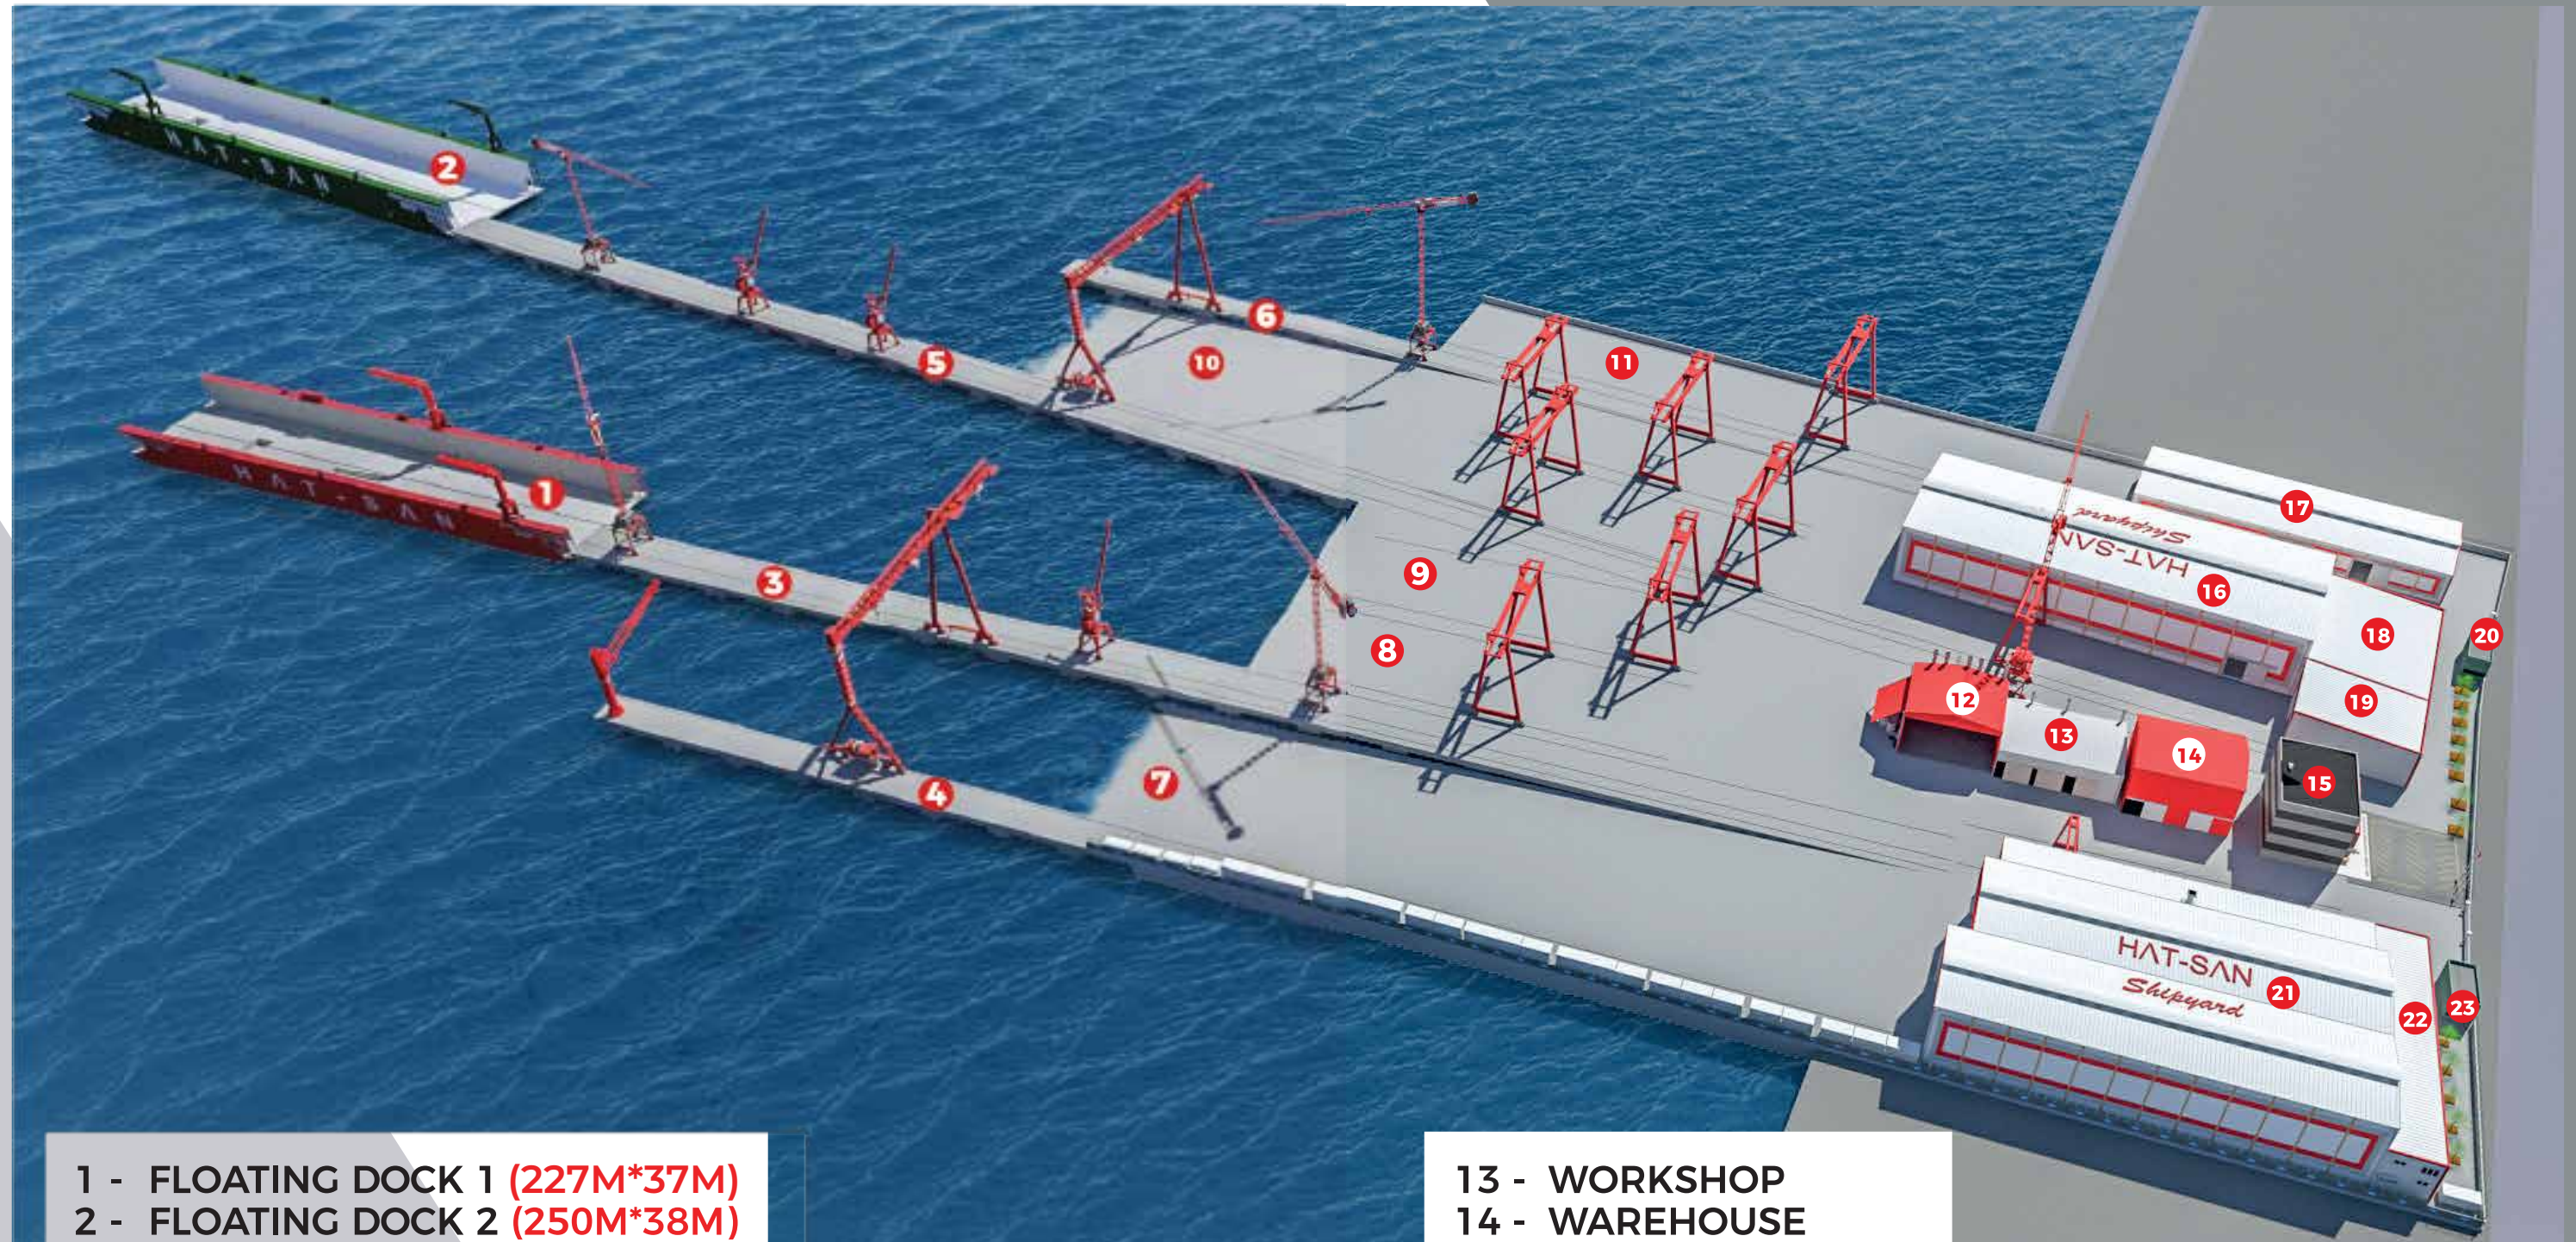

2022

The third sister of 4000 CBM Live Fish Carrier has been delivered to Norwegian Owners in Jan 22. Also, 5000 CBM Live Fish Carrier has been delivered to same Owner in Aug 22. New Panamax Size Floating Dock has been completed and started its activities for Hat-San repair and maintenance service.

2023

A new 10.000 TLC floating dock keel laying ceremony has been performed for Estonian Owners in Jan 23.

HAT-SAN is listed in BIST (Borsa Istanbul) stock exchange by Sep.23 becoming the first Yard in Turkish stock market.

FACILITIES

Slipways:

Slipway 1: 180 x 52 m equipped with a 2 x 150 MT gantry crane

Slipway 2: 170 x 25 m equipped with a 2 x 35 MT gantry crane

Slipway 3: 170 x 28 m equipped with a 2 x 35 MT gantry crane

Slipway 4: 200 x 65 m equipped with several cranes

Slipway 5: 160 x 35 m equipped with cranes

Floating Docks:

FLOATING DOCK 1 - 227 x 37 m (inner beam) equipped with two cranes 15 MT @ 20 m each

FLOATING DOCK 2 - 250 x 38 m (inner beam) equipped with two cranes 20 MT @ 23 m each

Piers and Quays:

Pier 1: 215 x 15 m equipped with one 15 MT x 20 m jib crane. 8 MT x 63 m 1 pc crane

Pier 2: 150 x 10 m equipped with one 10 MT crane

Pier 3: 406 x 15 m. 8m x 63 m 2 pcs crane and one 85t crane with 44m outreach

Pier 4: 150 x 10 m equipped with one 10 MT crane

Quay: 90 x 10 m

Closed Spaces:

Yard has two warehouses that has 4.500 m2 for consumables and spare materials.

Block Production Area has 4.500 m2 closed area. Blocks of the vessels and floating dock are fabricated in this area.

Mechanical and Pipe Workshop has 4.400 m2 closed area. All kind of equipment are able to be overhauled in mechanical workshop. All size of pipes are fabricated according to international standarts.

Paint Hall has 600 m2 closed area. Dimensions of the hall are 30x20x22 m. Up to 28x18 m megablocks are able to blasted and painted in the paint hall.

Workshops have 700 m2 closed area. All kind of insulation and outfitting works are able to be done in workshops.

Social Buildings have total 7.600 m2 closed area.

Stock area has 5.000 m2 open storage area for steel plates, profiles and pipes.

Hat-San Workshop (Hat-San 2) :

Total Workshop Area: 7.200 m2

Total Closed Areas: 3.850 m2

Steel Production Equipment: CNC Cutting Machines (3 sets), Bending Press Machines (2 sets)
